

Welcome to Shri Industries. We are dedicated to delivering top-tier products and services in Carbon Products.

As the **The House of Carbon**, we understand the importance of using **High-Quality** Carbonaceous Materials. This is why we offer you the full spectrum of the finest Carbon Products at competitive prices. Our products adhere to the **Environmental Code of Conduct** that makes your product meet the **Highest Standards of Quality and Performance**.

"Strategically Positioned for Success":

We have a strategic and advantageous location for business and trade. Located in the **Heart of India** our advantageous position provides unparalleled **Logistic Connectivity** by  **Rail**  **Road**  **Water**, this enable us to maintain a strong presence across **Pan India** with **Manufacturing & Beneficiation** facility at **Chhattisgarh, Odisha & Andhra Pradesh**.

Why choose us?

High-quality products

Reasonable Prices

Ability To Handle Bulk and Urgent Orders.

Wide Distribution Network

-  **Customization:** We specialize in tailoring our products to meet your exact specifications, from **custom sizes** and **moisture levels** to **grinding, packaging** and **beneficiation**.
-  **Exceptional Quality & Competitive Pricing:** We offer **high-quality carbon products** that guarantee value for your investment, at prices that meet your budget.
-  **Pan India Rapid Delivery:** With our strong **logistics network**, we ensure timely and reliable delivery of products.
-  **Sustainability & Ethics:** Our commitment to **sustainability** and **ethical practices** ensures that we not only meet industry standards but also make positive contributions to the environment and communities we serve.

Our Products:

Anthracite Coal

- A hard and glossy coal that has High Carbon content and Low Impurities and Ashes. We source it from Russia, where it is graded as Ultra High Grade (UHG) and has the Highest Rank among Anthracites that are available along with Lower Percentage of Moisture.

Size	Fix Carbon %	Sulphur %
0 to 13 mm	88 / 85	0.3 / 0.8
5 to 15 mm	88 / 85	0.3 / 0.8
10 to 30 mm	87 / 90	0.3 / 0.8

Metallurgical Coke

- A solid Carbonaceous material that is used as a fuel and a reducing agent in the production of Iron, Steel and other metals. We are both the manufacturer and importer of Metallurgical Coke.

Description	Size
Foundry Coke	+80mm
Blast Furnace Coke	40 to 80mm
Nut Coke/Pearl Coke	5 to 25mm, 10 to 30mm
Breeze Coke/Coke Fines	0 to 4mm, 0 to 10mm
	02 to 12mm

Carburizer/ Carbon Additive

- Carburizer is a Superior Carbon Additive carefully produced to enhance the Carbon content and improve the quality of Steel production processes. It is a material which is added to molten metal to Increase its Carbon content.

Size	Fix Carbon %	Sulphur %
1 to 5 mm	90 / 88	0.28
1 to 4 mm	90 / 88	0.28
1 to 3 mm	90 / 88	0.28
2 to 4 mm	90 / 88	0.28

Calcined Petroleum Coke

- It is a Carbon rich solid material that is used to make anodes for the Aluminium, Steel, and Titanium smelting industry and as the feedstock for production of Synthetic Graphite

Property	Unit	Specification
Fix Carbon	%	99.00 Min
Volatile Matter	%	0.50 Max
Ash	%	0.50 Max
Sulphur	%	0.8 - 3.5
